

Dear dog owner!

We welcome you and your dog, but there are still some rules you have to follow, so everybody can feel at ease.

Your dog needs to be on a leash on the campground.

Please make sure that your dog does not run away from your pitch or your holiday home.

At the dog park your dog is allowed to run free. Here it should relieve itself and not on the grass next to the footpath.

Therefore: Please, walk firstly to the dog park, then to the dog beach.

To find the dog beach you walk straight towards the slipway and then to the right. At the dog beach your dog can only run free, if it does not bother the other guests. Your dog is not allowed to run free on the dunes between the beach and the pitches.

Follow the signposted circular hiking trail from the dog park over a dirt track through meadows towards the forest road and back - whether you are going to the dog beach or the dog park.

Please do not let your dog run after wild animals. They need their peace as well.

Your dog should not run unsupervised across the farmyard.

Please use the doggy bags that you can get for free.

The playground and the sportsgrounds are dog free zones.

You can find addresses of different vets in Eckernförde at the reception.

If you like to take a trip without your dog, you can use the nearby dog hotel.

There are only two dogs per holiday house and pitch allowed.

Family Hoff and the team of campground Gut Karlsminde are wishing you and your dog a relaxing vacation.
