

Waste Disposal

Dear Guests!

At our campsite we only accept sorted waste!

You can find the opening hours of our waste disposal site at the reception!

Garbage can only be disposed of within the opening hours and please do not leave garbage at the gate!

You receive Yellow Bags at our reception for free!

- **Yellow Bags:** cans, plastic, polystyrene, aluminum, tinsplate and all "Green-Dot-Products", but no glass!
- **Brown Bags:** biological waste → kitchen scraps, peels, leftover food, coffee filters, tea bags and garden waste → wrapping it up in paper is ok, but no plastic bags!

You can purchase brown bags at the reception!

All paper and cardboard belong in the blue bin.

Any kind of bottle or glass jar that is non-refundable and which did not require a deposit or "Pfand", belongs in the designated glass bins.

The rest of your household waste, like ash, cigarette butts, nappies/diapers, tissues, other personal hygiene items belong in the residual waste bin. You can use your own garbage bags or shopping bags, but please do not misuse the Yellow Bags.

We do not accept bulky waste, like furniture, building materials, electronics etc. This you can dispose of at the Recyclinghof in Eckernförde. They also accept old fridges for free. You can check their business hours at www.awr.de or under: +49 (0)4331-345123

Please set an example for your children and do not just throw your waste away!

Do not leave your waste bags at the waste disposal sites gate!

Do not leave your waste bags at the garbage cans at the megalithic grave!

And especially do not throw your waste bins behind the next hedgerow on your way home!

Recycling is Germany's contribution to the global battle for the environment and the country has been very successful in its fight against growing garbage heaps. **Please help us in this battle and prove yourself as a real environmentalist.**

Thank you!
